The current figures therefore represent the period from 1 January to 7 April 2021. The applications being less than the number of approvals is the product of timing wherein applications from 2020 are still being approved in 2021 hence the difference in numbers.

⁷ Enterprise Ireland has engaged with 7,800 companies in relation to COVID-19. For many, the first step is to obtain the Business Financial Planning Grant which assists companies to understand their immediate financial position, secure the finance required to survive and provide a framework to sustain the business. EI have to date received 1069 applications for the Business Financial Planning Grant. Over the coming weeks and months, EI expects that many applications for Financial Planning Grants will transform into Sustaining Enterprise Fund applications. EI actively work with all applicants on a 1-2-1 basis to ensure they get the right support at the right time. The Sustaining Enterprise Fund, Small Enterprise Fund and HPSU Enterprise Fund and the EI COVID Product Scheme are all subject to budget availability.
