Child Safeguarding Statement
January 2020

Published by the Minister for Business, Enterprise and Innovation in accordance with Part 2 of the Children First Act, 2015.
Introduction

The Department of Business, Enterprise and Innovation (DBEI) plays a key role in implementing the Government’s policies of stimulating the productive capacity of the economy and creating an environment which supports job-creation and jobs maintenance. The Department also has a remit to promote fair competition in the marketplace, protect consumers and safeguard workers.

The Department is committed to providing a safe working environment and promotes an environment where respect, dignity, safety, and equality are paramount.

As policy makers we value the views of the future generation and, where relevant, we consult with young people through the National Youth Council of Ireland.

As an Organisation, we do not usually work directly with children in our day to day activities, but we may engage with children occasionally e.g. Transition Year students, Children’s Christmas Party, Workplace Relations Commission Inspections and on other occasions as addressed below.

The Children First Act 2015 (the Act), which was signed into law on 19 November 2015, puts elements of the Children First: National Guidance for the Protection and Welfare of Children on a statutory footing. The legislation was a key Programme for Government commitment, and forms part of a suite of child protection legislation which includes the National Vetting Bureau (Children and Vulnerable Persons) Acts, 2012-2016 and the Criminal Justice (Withholding of Information on Offences against Children and Vulnerable Persons) Act 2012.

As part of the Act, organisations that are providers of relevant services under the Act, must prepare a Child Safeguarding Statement. While in general the interaction between DBEI staff members and children does not fall within the definition of the provision of relevant services to children as set out in Schedule 1 of the Children First Act 2015, DBEI is committed to best practice in relation to child safeguarding and is therefore preparing a Child Safeguarding Statement.

Our Child Safeguarding Statement has been developed in line with requirements under the Children First Act 2015, the Children’s First National Guidance and Tusla’s Child Safeguarding: A guide for policy, procedure and practice.
